## The Washington Workshop

### DON NELSON REVEALS PLAN FOR MILITARY DICTATORSHIP

"Arsenal of Democracy" by Donald Nelson, gives some information that is news to many, but not to those who have studied the movements of Communism working under cover of the New Deal for several years.

The news is that, under F.D.R. in 1944, the stage was all set in Washington to grab the government and establish a military dictatorship. There were strong rumors to the effect that Bernard Baruch was to play the important part. Red masterminds ordered a delay in the carrying out of this plan — a delay order, mind you, not a cease fire!!!

### WANTED: A NEW NAME FOR THIS PUBLICATION

We are forced to remove the word **THINK** from our name. and are leaving it up to our subscribers to furnish a new name for this publication.

### Would you kindly write us your suggestions?

A name will be selected from the suggestions of our readers and we will then continue on our way, exposing Communism, considering this as just one more obstacle which was placed in our path.

One more thing . . . the contributor of the name we choose will receive the following interesting and informative books to add to his library:

The Challenge of World Communism—by Hamilton Fish.

Government by Treason—by John Howland Snow.

For Freedom's Sake—by Jeremiah Stokes.

The Smear Terror — by John T. Flynn.

### LET US PONDER POTENT TRUTH And Re-Dedicate Our Lives

by James Bryan

When fair dealings are put into practice, persecution will vanish just as darkness vanishes when sunlight dawns upon us.

Until this profound truth becomes the central idea motivating the conduct of all races, there can be no peace on earth and truculent cries in the name of non-existing justice will continue to be the gnashing of teeth with impotent rage against the Universal God governing all laws of cause and effect.

Unless mass thinking is made aware of the folly in following intellectual disciples of discontent whose only mission on earth seems to be keeping the masses in perpetual confusion and frustration, the dignity of man will continue on the decline.

It will therefore behoove each of us in an attitude of humiliation before God, to dedicate his life toward eradicating this fallacy.

### By NICOLI LENIN

We must hate — hatred is the basis of Communism. Children must be taught to hate their parents if they are not Communists. If they are, then the children need not respect them; need not worry about them. (Lenin, Congressional Record, vol. 77, pp.1539-40; "MKR" p.123).

ARCHIVES AUDITORIUM USED AS MOVIE THEATRE FEATURING PRO-RUSSIAN FILMS UNDER AN AGREEMENT CONTRARY TO REGULATIONS.

Those Americans who have taken sufficient time off from making money to study about Communism know that the Red Fifth Column has had free run of Washington and our Government buildings and departments for at least twelve years. They know that the Treasury Department was used to finance Communist ideas to disrupt and bankrupt our Government here in the United States and at the same time to set up and maintain Communism in other countries throughout the world.

The State Department is, of course, saturated with Communists in Washington and our foreign embassies to such an extent that the Kremlin in Moscow is better informed on our affairs than is the average American citizen.

The White House has been, and is today, a welcome spot for Red Fascists, where they give orders and bring pressure to place their friends in key positions. Speaking of key positions, during the past two weeks we find lined up behind David Lilienthal in his fight for the all-important atomic commission post, all Communist controlled organizations, such as the American Veterans Committee; the hundreds of Communist scientists; every Communist paper — and PM; and of course the

dupes who have been deceived or pressured by strong Communist influence.

When Archibald MacLeish turned over the keys of the Congressional Library to the Red Fascists, we considered **that** the high mark of their infiltration. Now, however, comes news which overshadows even that!!

The American Anti-Communist Association, Inc., of Washington, D. C., has uncovered the Washington Workshop, entrenched in the National Archives, which houses the treasures of our past as well as secret documents.

After reading the following facts about the Washington Workshop, Americans will undoubtedly look to the Department of Justice to make arrests in connection with the subversive workings of this group. We do not believe that such arrests will take place, for Communists have such influence in the Department of Justice that Tom Clark is unable to stop even the illegal entry into our country of some two thousand Reds each day.

The Washington Workshop has been operating in the District of Columbia since 1943 (of record). It is believed that previous to this date the program was conducted by the interested persons in the private homes of members. The leading figures in the Workshop are Ida Berkowitz, Leon Berkowitz, and L. F. Kern.

Amazing as it may seem, this group has been using the National Archives Auditorium every Friday evening at 8 p.m. for the purpose of showing propaganda films! Inspection of the films already shown reveals such "message" films as CITIZEN KANE, produced by Orson Wells, who is a member and sponsor of fourteen Communist fronts.

In 1944 the Washington Workshop featured films by Sergi Risenstein, who spent three years in Hollywood to promote Soviet Films in the United States. Risenstein is the leading Soviet Motion Picture Producer and accepted writer. The film shown in October, 1944, Risenstein's ALEXANDER NEVSKY, is based on the Teutonic invasion of Russia in the Thirteenth Century and is strictly a propaganda film. Also in October, 1944, they showed Leni Riefenstahl's THE TRIUMPH OF THE WILL, which was intended to expose Nazi propaganda endeavors.

On October 2, 1943, this group featured Josh White, singer and guitar player, who had been featured in CAFE

SOCIETY DOWNTOWN. Josh is a well-known Communist sympathizer and probably a member of the Communist Party. He belongs to a number of fronts and has loaned his talents to a score of Red front meetings.

But let us get down to the arrangement of this group with the Archives. The Washington Workshop agreed to furnish a feature film and the Archives would furnish a second film **free of charge**. The organization was given the auditorium **without charge**, but paid the projectionist for his time. Membership of the Workshop was about two hundred and is known to be a closed membership at the present time. The capacity of the auditorium is 216 seats, twenty-five of which were to be set aside for employees of the Archives at each showing.

The Archives have a definite policy in respect to the use of their auditorium; this policy restricts the use of the room to Government agencies and related bureaus of the United States. It is difficult to see how this organization falls within this classification. Mr. Thad Page, of the Archives, with whom the agreement was actually made, has stated that in the beginning he was suspicious of this group, but that he was persuaded by Mr. Dan Lacy, an employee of the Archives, to permit this group to have use of the auditorium. As is stated above, the policy in regard to the Archives auditorium restricts its use to Government agencies . . . why was an exception made with this group?!!

One of the most significant facts in respect to the use of this hall is that the Soviet Embassy in Washington made a number of attempts to secure use of the premises at the same time the Washington Workshop was negotiating for the hall. Finally, when the Workshop was granted permission to use the auditorium, the Soviet Embassy made no further requests.

We wish to express our sincere appreciation to former Governor Earle's splendid organization, the American Anti-Communist Association, Inc., for their cooperation in supplying us with the facts in regard to the Washington Workshop.

This organization is performing an invaluable service for each and every American citizen by investigating subversive groups and exposing the traitors to our country.

We suggest that our readers extend to them a vote of thanks: 1025 Connecticut Ave., Washington, D. C. Address your letters to: Mr. George H. Perkins, Executive Secretary.

## OUR GREATEST HERITAGE — THE CONSTITUTION

by The Observer

The greatest heritage that has fallen to any single people in history is our Federal Constitution.

In this age of perplexing problems and chaotic conditions there is nothing one can do with so great profit, to gain a clear concept of cause and remedy, as to go back and read the history of this country for a few years before the Constitution was written and a few years after it was written. It would have a far-reaching influence for good if the American people who are seeking a way out of almost insurmountable difficulties could be persuaded to study the Constitution and read the discussions that led up to the meeting of our Constitutional Convention and the arguments that were advanced in the "Federalist" and elsewhere for its adoption.

Before the Constitution was written, the mob drove our Congress from Philadelphia into New Jersey. Shay's rebellion assaulted the courthouses in the State of Massachusetts, money was worth two and one-half cents on the dollar, and we had no credit anywhere. ORDER OUT OF CHAOS. In the black night of chaos and darkness and despair, fifty-five men met in Philadelphia and wrote the Constitution; and almost immediately, governmentally, light began to come out of darkness, order began to come out of chaos. During the hundred years following its adoption and the founding of this Republic, we made more human progress, material, mental, and moral, than the world had known in all time before. During that hundred years we were the most normal people in our homes, in our schools, in our churches, and in our industry that history records.

Before the Constitution was written, the pendulum of government throughout the centuries had swung back and forth from the monarch to the mob. Alexander Hamilton, the master mind of the Constitutional Convention, said: "We are forming a republican government. Real liberty is never found in despotism, or the extremes of democracy . . . If we incline too much to democracy, we will shoot into a monarchy." Which in today's parlance means a dictatorship. In other words, we will be subject to the caprices of the de-Nationalist fraud called the "United Nations" and the flim flam called the World Bank — the Golden Calf — of the International "Money Changers" who aim to dominate all the trade of the world, our own included.

## UNITED NATIONS ORGANIZATION

They left God out of all their specious plans,  
His name was never mentioned in their talk,  
The sought no benediction from His kindly hands,  
No guidance on the pathway they would walk;  
They trusted in themselves, day after day,  
Making weak men the measure of their deeds, —  
Too mighty to seek help, — too proud to pray,  
Sufficient in themselves for all their needs.

What wonder that their planning came to naught,  
And their great "Tower of Babel" was destroyed!  
What wonder that the safeguards which they sought  
Without His help were suddenly made void!  
God is not mocked, And His eternal power  
Still rules the universe, each day and hour.

— F. L. S., Massachusetts.

## WATCH HAROLD STASSEN

Two politicians have tried to sell "One Worldism" to our sound-thinking American people and both have failed utterly. The first was Mr. Willkie (speaking for his New York backers) and the second was Mr. Harold Stassen, who apparently has obtained some of the same backing. Mr. Stassen first came bouncing into the ring "booted and spurred and ready to ride" with some barn-storming talks on "World Government" back in 1943. In an article in the Saturday Evening Post, May 22, 1943, he gave in great detail his conception of what we must have in the way of World Government. It simply didn't take. It was a dud. It was a millstone that Mr. Stassen hung around his neck when the New Deal sap was running. He is trying to live it down — by keeping very quiet about it. But the ghosts of his World Government "wild oats" days stalk his Presidential ambitions."

## BIT OF THIS & THAT

By David Goldstein, L.L. D.

**EVERY NOW AND THEN** it becomes necessary to depart from the course this column suggests, by devoting the space allotted to one "bit" of information, instead of a "bit of this and that." This time it is "Russia," as the Soviet Union is popularly, though incorrectly called. It is due to being fed up with the presumptuous, offensive dictatorialness of the Stalin-Molotov-Gromyko group, who are "Russia." It is due to being fed up with reports that Stalin said this, that, and the other thing; that he is softening up, that he wants peace, disarmament, etc., when his word, like the treaties made with Poland, Finland, and a couple of dozen other countries, is not worth the price of the paper upon which it is written. For instance, Stalin said, in his report to the 16th Congress of the Communist Party: "We don't want a single foot of foreign territory; but we will not surrender a single inch of our territory to any one." Yet, as reported two columns ago, Uncle Joe has annexed thus far 196,823 square miles "of foreign territory" to his dominion.

**AMERICAN EYES** are centered upon General George C. Marshall, our new and able Secretary of State. "How will he act towards Russia?" "Will he take a get tough attitude?" "Will he favor giving the atom bomb secret to Russia?" "Will he favor disarmament, while leaving Russia with her vast conscript army supplemented by the man power of her satellite states, with which she can seize the whole of Europe?" The answers to these questions lie in the future. In the meantime, the dignity of Americans will no doubt continue to be offended by the insults of the tyrants in the Kremlin.

**IF WE WERE** to believe what is said in Pravda and Izvestia, and by the Russian Firsters who sneeze whenever Stalin takes snuff, one would think that World War II was won by Russia. Surely, if any country is to be credited with the victory, if victory it may be called, that country is the U.S.A. Of course, one must recognize the fact that as far as the number of dead and wounded, and the destruction of the cities, are concerned, Russia suffered

## PORTAL SUITS PART OF PLAN BY KREMLIN TO BANKRUPT ALL INDUSTRY IN AMERICA

The Portal Suits idea was thought out in the Kremlin and sent to the underground Reds here who gave the plan to Red Ben Riskin of C.I.O. to launch.

Another dangerous Communist lawyer, Edward Lamb, was chosen to bring the first test suit. The action was upheld by the Supreme Court.

Thereafter four billion dollars worth of suits against factories were quickly filed by C.I.O. unions. This is part of the plan to bankrupt all industry to make room for Communism.

The C.I.O. national organization is a Communist Front and soon we will run an article to substantiate this statement. Philip Murray is only an innocent dupe, who is helping Communism's largest front; he should have a talk with Louis Budenz to get his eyes opened.

The latest development on these portal suits is that thumbs down has been ruled on the test case. But do not be fooled. This is only the beginning. The C.I.O. did not spend millions of dollars building up this monster without first being sure of the means with which to keep it alive.

## A WORD TO THE WISE IS SUFFICIENT

Just a word to the groups which are organizing in many cities to discuss ways to increase the circulation of **THINK WEEKLY**, and thereby to fight Communism within their own communities.

We would suggest that you keep your groups small so that every member will be well known to every other member. Otherwise you will **POSITIVELY** have Communists within your organization, who will in time twist your words and your purpose into something evil and disrupt the entire movement.

more than the U. S. A. But that was in self-defense, in a war that she encouraged by the Stalin-Molotov Hitler-Von Ribbentrop compact against Great Britain and France. Russia was forced, through her former ally, to fight on a two thousand mile front and in the little Baltic Sea; whereas the U.S.A. waged war on the seven seas, and on tens of thousands of miles of battle fronts.

# The Challenge of World Communism

by HAMILTON FISH

"To fight Communism by telling the truth" is the author's avowed purpose. It is the author's main interest to present the facts to the American people, and let them decide for themselves what is for the best interest of America and the world. For the preservation of America's democratic institutions the struggle against Communism must be carried out. THE CHALLENGE OF WORLD COMMUNISM is ready to supply both facts and inspiration.

Prominent citizens endorse THE CHALLENGE OF WORLD COM-

MUNISM as follows:

"You have done a remarkably good job in THE CHALLENGE OF WORLD COMMUNISM and one that needed to be done. You bring together in one document the material which has been scattered all over and which is too little known to our people who are being duped by agents of a foreign power." — George E. Sokolsky.

"Your book will be a powerful influence against the spread of Communism in America. It will help goad the sluggish popular mind into action for self-

preservation and freedom with the force that Tom Paine's pamphlets roused the American people to fight for liberty in the eighteenth century." — Reverend James M. Gillis, editor, *The Catholic World*.

All Americans who wish to fortify themselves with facts to combat Communism will value this book.

Crammed full of fighting facts, and written by an American who has devoted many years to studying and fighting Communism in face of a smear campaign financed by International Reds.

Price \$2.50, postpaid.

## WOMAN DISGUSTED WITH INDIFFERENCE OF CITIZENS

East Orange, N. J. Feb. 10, 1947

Gentlemen:

This past Friday I attended a rally of the Loyal Americans at Moose-Hall in Irvington. I was impressed by what was a significant demonstration of the indifference, the selfishness and the probable laziness of the majority of post-war Americans. There was but a sparse attendance; there should have been a tremendously enthusiastic reception of wholesome, God-fearing ideas. At least it was a beginning. Please God the movement grows and grows — strengthening, disciplining, educating to the point where Communism's ugly hold is completely torn out and its rotten philosophy annihilated.

There may not be much that one such as I can do in the way of a brilliant or thought-provoking contribution — but I hereby resolve to subscribe to publications such as THINK WEEKLY, to attend meetings of organizations such as the Loyal Americans, to train my layman's mind to recognize the slimy maneuverings of Communistic fronts and to call all these things to the attention of my friends and acquaintances.

The very best of luck to you. Never falter in your resolve to fight the Red. We'll back you up.

In Gratitude, A.T.

(Ed. Note—We all might benefit by this woman's timely observations.)

## VOICE OF THE READER

Vancouver, B. C., Canada  
31/1/47

I have recently received from a friend in Northridge, California, two copies of your paper, and I admire the way in which you are warning the people of their activities in your country and mine also.

I have been a Christian student of Bible Prophecy for a number of years, and what you write in your paper I can see shaping up. Also I fear this deadly menace may sweep North America sooner than we think.

I am also writing to ask you if you would kindly mail me one or two copies, old ones if you like, of your paper, as I wish to take more time to study it and get all the details as I mailed out the last papers very hurriedly.

Sincerely, A.H.
